Managed Portfolios
Global Aggressive Growth

Portfolio fact sheet October 2026

Designed for investors seeking access to a low-cost, diversified multi-asset ETF portfolio, with minimal exposure to Australian equities. Investment strategies are designed and overseen by BlackRock, with regular rebalancing to help keep your portfolio aligned with its investment strategy.

Overview

Investment objective

The Global Aggressive Growth Portfolio aims to provide a high level of capital growth and capital volatility over a minimum recommended investment timeframe of 5 years.

Investment Strategy

The portfolio invests in a diversified mix of exchange-traded funds (ETFs) across key asset classes with minimal exposure to Australian equities and follows a long-term strategic asset allocation (SAA) approach, aiming for around **90% growth assets**, such as international equities (hedged and unhedged), and **10% defensive assets**, such as fixed income and cash.

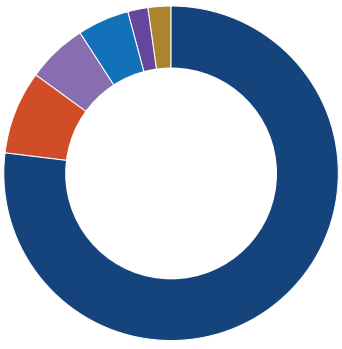

Asset allocations are managed within defined allowable ranges, are reviewed regularly, and the portfolio is typically rebalanced periodically to help keep it aligned with its investment objectives.

$10,000 Minimum Initial Investment	**5+ years** Suggested minimum time frame
High Risk profile	**4 - 6** Est number of negative annual returns over a 20-year period

Management fees and costs

The management fee is based on the total value of your portfolio (invested assets and cash). The fee is calculated daily on invested assets only (excluding cash) and paid monthly in arrears from the portfolio cash balance.

Portfolio value	Management fee	Indirect costs*	Brokerage
Up to $249,999	0.55%p.a	0.14%	$0
$250,000 - $999,999	0.45%p.a	0.14%	$0
$1 million+	0.35%p.a	0.14%	$0

*Indirect costs reflect the weighted Management Expense Ratio (MER) of the underlying ETFs held within your selected Managed Portfolio. These costs represent the fees paid to the fund managers or issuers and are built into ETF unit prices, rather than being deducted directly from your Portfolio or charged to your Account. Refer to the Product Disclosure Statement (PDS) for further information on fees and costs.

Risks

All investments involve risk. When investing in a Managed Portfolio, it's important to understand that:

- The value of your investment can go up and down
- Returns are not guaranteed and you may lose money
- Different portfolio strategies carry different levels of risk depending on their underlying assets
- Investments with higher long-term return potential may experience greater short-term volatility
- Past performance is not necessarily indicative of future performance

For more information about the risks of investing refer to the Product Disclosure Statement (PDS), available at nabtrade.com.au.
